Next Board/Club Meeting

**Tuesday, September 24^h
6PM, Hummel Field**

The Field Needs Rain!

For those of us mowing, our job has been really simple lately. The field has shown little growth and mowing has been spotty. The predictions show a little rain coming so I hope our field survives this dry spell. I had emailed all about the need for Dennis Sedlock to be removed from the schedule and I did not hear if anyone stepped up. Just a reminder, if you do plan to mow, please notify the membership or email me and I'll do it.

Last month Gary S. presented an important safety review regarding prop security and the correct positioning while starting. Gary's personal experience is a reminder to all to check all equipment before getting to the runway. I do have a small supply of safety glasses for those that may be interested. I'll have them at our meeting this week. I have researched the field safety rules from the AMA and have some suggestions to make.

There have been two recent complaints from neighbors suggesting we are flying over their homes. Dick was involved with one and I am told we received a personal visit from another. This situation has been a constant problem and will only get worse unless we may have some changes. I have written both neighbors to the South asking them to contact me with their concerns and I hope I am able to calm them that we believe that we are not over their homes. We'll discuss this at our meeting.

SUPER SCALE is coming up this Sunday, September 29th. I've not seen any food lists so I guess we'll just wing it. Bob Palmer was able to secure gift certificates at the Hobby Shoppe that we will include during our raffle. A volunteer will be needed to sell tickets.

Our elections for officers and board members will begin next month. You can see the list of terms that expire in 2024. Our elections will be done during our November meeting.

On a personal note, I have decided to step down as President as my term expires and won't rerun. My travel schedule will cause me to miss several meetings next year, including our meeting in October, next month. This will allow for a more experienced individual to lead the club into the future.

In October we will begin meeting indoors at the Franklin Library. Dates will change to Thursday and begin October 24th at 6:30PM.

See you Tuesday at 6PM. Not sure about the food schedule.
