Next Board/Club Meeting

Tuesday, July 29th 6PM
Food ready at 5:30PM

Holy Cow! Summer is upon us and Boy is it HOT!!

The field has been a busy place even with the heat. We have been flying Oldtimers on Tuesdays from noon till around 4pm with very good turnout and some new faces making it all the time. One added benefit is that many of the new flyers to the club have discovered that an old timer model can be a great way to improve your flying skills as they are a design that are very easy to fly. Turn out for Tuesday night flying has been very good as well. This next Tuesday in addition to our meeting we will have an ALL-UP/LAST DOWN event for gliders/ old timers/ whatever you have just for fun. Also, we are planning on flying some night flyers this week so bring them if you've got them. **This month's meeting will start at 6:00 pm** so we can get it out of the way in order to move onto the flying stuff.

As a field report, the turf continues to grow faster that we have seen in the past making it difficult to keep up with however with the great efforts of the field crew it is getting done. The Zero Turn is in for service as the belts stopped spinning. I have been told that we will have it back within a week. I took a ride with George and the Hummels to discuss the area we will continue to cut on the outers last week and will discuss that in more detail at the meeting.

There is shade shelter installed out at the field that is 10' x 30'. It is there for all to use. I installed it as an experiment to see how well it will hold up to the elements. If it survives, we will take it down at the end of October and put it back up in the spring to provide shade for anyone coming to the field. It may help to start a discussion of more robust shade options that we could put up as an improvement to our field.

More later, Tom

Our next Club meeting is Tuesday, July 29th at 6PM at the WORKS/Hummel flying field. Food ready by 5:30PM. Hope to see you there.
