Next Board/Club Meeting

Tuesday, May 27th 7:00PM
Food ready at 6:00PM

Comments from our Leader....

We are losing one of our own, Bob Christopher is leaving us for Oklahoma in the next couple of weeks to be closer to his family. He will be truly missed as he has put many pilots in the air and we thank him for the many years of service to the Club! He has some aircraft to unload before packing it up so please contact him if you are looking for anything and by all means let him know how much it means to have flown with him all these years. We'll be replacing Bob on the Board and reorganizing the training routine so anyone that is interested in training please contact one of the Board, we will need trainers!

Ok Gang, let's talk safety.... I must admit, I knew better than that. At my age (58) and as a lifelong modeler, I have learned something new. Even I can become complacent, neigh even negligent to the point of doing something unsafe.

Last Tuesday, I destroyed two airplanes in one evening by not following my own basic safety rules while enjoying this hobby. While I will not bore you with the details of the actions, I will say even an old salt like me can make rookie mistakes that can put others in danger. It took a conversation later with a friend to help me realize that there is no room for carelessness in our hobby. I want to apologize again to those that were present, that I let this happen.

While the only damage was to easily replaced airplanes, I am resolved to not allow things like this to occur in the future. Checklists suddenly do not seem like such a difficult thing to do and so I remind all of the membership that if you see something unsafe while at the field do not be silent about it. Try to be supportive and helpful but by all means do not be silent. If you need additional backup from me, I will be there. Ok that's enough from me, enough said! Tom.

Don't forget **Spring In The Air** this Wednesday, May 21st and Thursday, May 22nd. If you bring food, please let Greg Newman know what you're planning. If you want to fly, there will be plenty of extra airplanes and please come out anyways even if you do not plan on flying to help with other things. If you have any question call Tom Boyce or Jim Martin. Our next meeting is Tuesday, May 27th at the Field 7PM, food ready at 6PM. See you there!
